FEFCO 04XX – SULANKSTAMOSIOS DĖŽĖS - tai taip vadinama „vyniojami“ pakuotė. Šio tipo pakuotė ypatinga tuo, kad neturi nei vieno sujungimo. Visa pakuotė yra tarsi vienas lapas, kur viena pakuotės sienelė yra kitos tęsinys. Šio tipo pakuotė „apvynioja“ pakuojamą daiktą, todėl ypač tinka didelių gabaritų daiktams (baldams, jų dalims, durims, langams) pakuoti. Gali būti naudojamos įvairios fiksavimo detalės bei rankenėlės.
